

# Memo

**To:** Inspection Requirements for Construction Projects

**From:** Jo Manning

Once a permit is approved for construction of a project the following steps must be taken during the construction phase to ensure compliance with the Town of Millington regulations:

An inspection is required at various stages of construction. Upon completion of that phase contractor or property owner must contact **MDIA at 410-822-8300** to request the inspection. You will be asked for the permit number and property location, which is found on the approved permit. The required inspections are:

- Footer completion;
- Foundation completion;
- Framework completion;
- Electrical rough-in;
- Plumbing rough-in;
- Insulation completion;
- Final completion.

Do not hesitate to contact the Town Office with any questions or concerns.
